SKILLS FOR HEALTH CAREER FRAMEWORK PROJECT

Level Descriptors

Key characteristics of a Level 3 Role

Definition of the Level 3 Role

People at level 3 require knowledge of facts, principles, processes and general concepts in a field of work. They may carry out a wider range of duties than the person working at level 2 and will have more responsibility with guidance and supervision available when needed. They will contribute to service development and are responsible for self-development.

Example of Role at Level 3

Senior Healthcare Assistant:

Senior healthcare assistants or technicians support the work of practitioners at all levels and may work as part of a team. They demonstrate an ability to carry out tasks, solving straightforward problems and making some judgements, with guidance and supervision available. They have skills in specific focussed aspects of service delivery.

These characteristics have been developed by Skills for Health working with employers and other stakeholders.
