Level Descriptors

Key characteristics of a Level 1 Role

Definition of the Level 1 Role

People at level 1 are at entry level, and require basic general knowledge. They undertake a limited number of straightforward tasks under direct supervision.

Example of Role at Level 1

Support Worker:

Level 1 support workers work to agreed protocols and procedures in stable structured work areas. They are able to solve routine problems and make straightforward judgements based on established protocols. They have general skills in a specific aspect of service delivery and work under direct supervision.

These characteristics have been developed by Skills for Health working with employers and other stakeholders.

Basic Information:

Named Role	Support Worker, Phlebotomy And Clinics
Area of work	Community NHS Or Local Authority Or Independent, Diagnostics, Hospital NHS Or Independent
Role Family	Healthcare Science, Nursing
Experience required	None
Career Framework Level	1

Summary of Role

This level one role is responsible to the registered nurse or designated mentor on duty. All work undertaken will be supervised by the registered nurse or designated mentor.

Scope of the Role

This level one role is responsible to the registered nurse or designated mentor on duty. All work undertaken will be supervised by the registered nurse or designated mentor.

The scope of the role is as follows:

To work as part of a team within the ward environment, in order to assist in the provision of a professional, inclusive service for patients, staff and visitors, whilst promoting a healthy environment for all.

To assist in care duties of patients under the direction of the registered nurse or designated mentor in order to carry out fundamental patient care

To support activities of daily living, whilst encouraging active participation and monitoring changes in patients condition, reporting and recording as required, under supervision.

To undertake training and gain a Diploma in Clinical Healthcare Support/Health and Social Care at Level 2, as an apprentice within Liverpool Community Health NHS Trust, with a view to progression to clinical healthcare support worker level 3 or as appropriate to previous qualifications. All pastoral care and assessment will be undertaken by the Trusts designated training provider

Initially the role will be focused on bed based care. However this focus will ultimately encompass community and walk-in health centre care, phlebotomy and other clinics

Competences for the level 1 health care support worker role have been identified in the following categories:

Core to all level one roles

Specific to three discreet aspects or facets of the role. These facets are:

Ward Based Care

Health Centre Care/Community Care

Phlebotomy, Clinics

Therefore all health care support workers delivering any aspect of care will include the core competences plus one or more of the specific competence sets as required.

It may be necessary for a small number of additional competences to be added to the template dependent upon local need at a later stage.

N.B. Competences may be added locally but they cannot be removed from the agreed profiles contained in this document. Any additional competences, identified locally using the competence tools and the health functional map can then be added to the template using the same format.

All level 1 roles will have the following common/core competences.

All competences are national occupational standards (NOS)

Level 1 Core Competences / National Occupational Standards:

Underpinning Principle	Reference Function		Competence
